Arizona Corporation Commission  
DOCKETED

FEB 27 2015

Tucson Electric Power's Net Metering Tariff should be modified so that in lieu of payments, at the new rate proposed, to customers for excess generation made at the October billing cycle, any such payments could be directed into its fund for assisting low income ratepayers, if the customer so requests. TEP would need to publicize this option to its net metering customers.

I do not see this as an option at present in TEP's Tariff Rider R-4 and would urge the Commission to adopt this option, using the MCCCCG amount approved in this matter.

Thank you.
